NEW HORIZON FOR MARBELLA GOLF CLUB

Goodbye to the 'Hotel That Never Was'

GOING...

GOING...

What seemed impossible to achieve is now finally underway.

This very prominent 'shell' will finally be razed to the ground before the end of the year. The 11 story building was built in the 70s with the idea to become a luxury hotel for a North-American hotel chain. The structure, which is clearly visible from the N-340 and from the AP-7, became better known as a bird sanctuary over the years as much as a reminder of Marbella's turbulent past. Marbella Golf Club, in conjunction with the Marbella Town

Hall see the demolition of the structure as part of the new image Marbella is determined to project for the future.

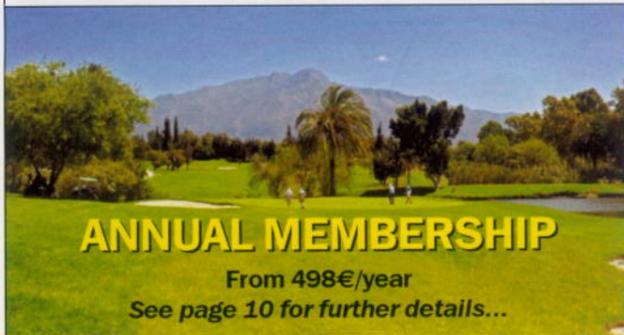

Golf Manager Craig Cooke told us "The course is in perfect condition and will not be affected in any way by the demolition works." So why not take the opportunity to visit Marbella Golf Club over the next few months and watch the demolition from the magnificent clubhouse.

There are great deals at the club including monthly and annual memberships.
